💸 Expense Tracking & Tax Categories

💸 Expense Tracking & Tax Categories

Revital Productions — Finance & Billing | Updated June 2026

> **PURPOSE:** This document defines how Revital Productions tracks, categorizes, and logs all business expenses for accurate financial reporting and tax preparation. Following these categories consistently makes tax filing faster, reduces the risk of missed deductions, and gives leadership a clear picture of where money is being spent.

> **WHERE TO LOG EXPENSES:** All expenses are logged in the 💸 Expenses Tracker list in ClickUp under the 💰 Finance and Billing folder. Use the task format and categories defined in this document for every expense entry.

> ⚠️ **IMPORTANT DISCLAIMER:** This document is a starting framework based on common IRS Schedule C deduction categories for self-employed individuals and small businesses. Revital Productions should work with a licensed CPA or tax professional in Louisiana to confirm all applicable deductions, percentage rules, and state-specific requirements. Tax laws change — review this document annually with your accountant.

📑 DOCUMENT INDEX

9	Louisiana-Specific Considerations

SECTION 1 — EXPENSE TRACKING RULES

Golden Rules of Expense Tracking

Rule	Standard
Log immediately	Log every expense the same day it occurs — never batch log weeks later
Keep every receipt	Every business expense needs a receipt — no exceptions
Separate business and personal	Never use the same bank account or card for business and personal expenses
Be accurate	Log the exact amount — do not estimate or round
Be descriptive	Every expense log must include what it was for and which client or purpose it served
No cash without documentation	If you pay cash for a business expense — get a receipt or write a detailed memo immediately
Consistency	Use the exact category names from Section 2 every time — consistent categorization is critical for tax filing

What Makes an Expense Deductible

According to IRS guidelines, a business expense is deductible if it is:

- **Ordinary** — common and accepted in the marketing / production industry

- **Necessary** — helpful and appropriate for the business
- **Directly related to the business** — not personal in nature

When in doubt — log the expense with a clear business purpose note and let your accountant decide. It is better to log too many expenses than too few.

SECTION 2 — EXPENSE CATEGORIES & TAX TREATMENT

Category Overview

#	Category	IRS Schedule C Line	Deductible %	Notes
1	Software & Subscriptions	Line 18 — Office Expense	100%	Business software only
2	Contractor & Freelancer Payments	Line 11 — Contract Labor	100%	Requires W-9 / 1099
3	Advertising & Marketing	Line 8 — Advertising	100%	Company's own marketing
4	Equipment & Technology	Line 13 — Depreciation / Section 179	100% or depreciated	See category notes
5	Phone	Line 25 — Utilities	Business % only	Must calculate business use %
6	Internet	Line 25 — Utilities	Business % only	Must calculate business use %
7	Travel	Line 24a — Travel	100%	Business travel only
8	Mileage / Vehicle	Line 9 — Car & Truck	IRS rate per mile	Must log every trip
9	Meals & Entertainment	Line 24b — Meals	50%	Business meals only
10	Professional Services	Line 17 — Legal & Professional	100%	Attorney, CPA, consultants
11	Education & Training	Line 27a — Other Expenses	100%	Must relate to current business
12	Office Supplies	Line 22 — Supplies	100%	Physical supplies only

13	Home Office	Line 30 — Home Office	Calculated	See Section 6
14	Bank & Payment Fees	Line 27a — Other Expenses	100%	Bank fees, Stripe fees, etc.
15	Insurance	Line 15 — Insurance	100%	Business insurance only
16	Client Gifts	Line 27a — Other Expenses	$25 max per client per year	Must note recipient
17	Printing & Postage	Line 18 — Office Expense	100%	Business use only
18	Dues & Memberships	Line 27a — Other Expenses	100%	Professional orgs only
19	Ad Spend — Client	Not a Revital expense	N/A	Client pays — never logged as Revital expense
20	Payroll / Owner Draw	Separate from Schedule C	See note	Consult CPA

Category Details

1. 💻 Software & Subscriptions

IRS Line: 18 — Office Expense
Deductible: 100% for business software

Includes all software, apps, and SaaS tools used to run the business or deliver client services.

Examples:

- ClickUp *(project management)*
- Notion *(documentation)*
- Canva Pro *(design)*
- Adobe Creative Cloud *(design & video)*
- Scheduling tools *(Buffer, Later, Hootsuite, Sprout Social)*
- SEO tools *(SEMrush, Ahrefs, Moz)*
- Email marketing platforms *(Mailchimp, Klaviyo — for Revital's own use)*

- Reporting tools *(AgencyAnalytics, DashThis)*
- Video editing software *(CapCut, Premiere Pro, Final Cut)*
- Cloud storage *(Google Drive, Dropbox)*
- Password manager subscription
- VPN subscription
- Zoom / Google Meet / communication tools
- AI tools used for business *(ChatGPT Plus, Claude Pro, etc.)*
- Accounting software *(QuickBooks, FreshBooks, Wave)*
- CRM tools *(if separate from ClickUp)*

Log as: `Software & Subscriptions — [Tool Name] — [Month/Year]`
Example: `Software & Subscriptions — ClickUp Business — June 2026`

> If a tool is used partly for personal and partly for business — only deduct the business use percentage. Note the percentage in the expense log.

---

2. 🤝 Contractor & Freelancer Payments

IRS Line: 11 — Contract Labor
Deductible: 100%

Payments to independent contractors and freelancers for work performed on behalf of Revital Productions or for client deliverables.

Examples:

- Freelance photographers
- Freelance videographers
- Freelance copywriters / content writers
- Freelance graphic designers
- Freelance web developers
- Virtual assistants
- Subcontracted marketing specialists

Important tax requirements:

- Collect a **W-9 form** from every contractor before making the first payment

- Issue a **1099-NEC** to any contractor paid $600 or more in a calendar year — deadline is January 31 of the following year
- Log the contractor's name, payment amount, and date for every payment
- Store all W-9 forms in the ⚖️ Legal & Compliance folder in ClickUp

Log as: `Contractor Payment — [Contractor Name] — [Project/Client] — [Date]`
Example: `Contractor Payment — Sarah Johnson Photography — Acme Wellness Shoot — Jun 15 2026`

---

3. 📣 Advertising & Marketing — Revital's Own

IRS Line: 8 — Advertising
Deductible: 100%

Money spent to market and grow Revital Productions itself — not client ad spend.

Examples:

- Meta/Google/TikTok ads for Revital's own lead generation
- Revital's own website hosting and domain renewal
- Stock photo subscriptions for Revital's own content
- Branded merchandise (business cards, shirts, etc.)
- Trade show or event booth fees
- Sponsorships to promote Revital's brand
- PR or press release services
- Revital's own email marketing platform subscription

Do NOT include: Client ad spend — this is billed directly to the client and is never a Revital expense

Log as: `Advertising & Marketing — [Description] — [Date]`
Example: `Advertising & Marketing — Meta Ads Lead Gen Campaign — June 2026`

---

4. 🖥️ Equipment & Technology

IRS Line: 13 — Depreciation (or Section 179 for full deduction in year of purchase)
Deductible: 100% via Section 179 (up to annual limit) or depreciated over useful life

Equipment purchased primarily for business use.

Examples:

- Computers and laptops
- Monitors and display screens
- Cameras (photo and video)
- Lighting equipment for shoots
- Microphones and audio equipment
- Hard drives and storage devices
- Tablets and iPads
- Phones (business use portion — see Phone category)
- Studio equipment
- Tripods, gimbals, and camera accessories
- Printers and scanners
- Desk and ergonomic equipment *(for home office — see Home Office section)*

Important:

- Equipment over $2,500 typically must be depreciated over its useful life unless you elect Section 179
- Section 179 allows you to deduct the full cost in the year of purchase — up to the annual limit (consult your CPA for the current year limit)
- Keep the purchase receipt AND document what the equipment is used for
- If equipment is used for both personal and business — only deduct the business use percentage

Log as: `Equipment — [Item Description] — [Purchase Date]`
Example: `Equipment — Sony ZV-E10 Camera — Jun 5 2026`

---

5. 📱 Phone

IRS Line: 25 — Utilities
Deductible: Business use percentage only

Your monthly phone bill — deductible for the portion used for business.

How to calculate business use %:

- Estimate the percentage of time your phone is used for business vs. personal

- Common business use: calls with clients, Slack/ClickUp notifications, social media management, 2FA, business email
- If phone is used 70% for business — deduct 70% of the monthly bill
- Document your estimated business use % and keep it consistent year to year

Log as: `Phone — [Provider] — [Month/Year] — [Business Use %]`
Example: `Phone — AT&T — June 2026 — 70% business use`

---

6. 🌐 Internet

IRS Line: 25 — Utilities
Deductible: Business use percentage only

Your monthly home internet bill — deductible for the portion used for business.

How to calculate:

- If you work from home full time — typically 50-80% business use is supportable
- If you have a separate office — 100% of that office's internet may be deductible
- If you also use the Home Office deduction — coordinate with your CPA to avoid double-counting

Log as: `Internet — [Provider] — [Month/Year] — [Business Use %]`
Example: `Internet — Cox Communications — June 2026 — 75% business use`

---

7. ✈️ Travel

IRS Line: 24a — Travel
Deductible: 100% for legitimate business travel

Travel expenses when traveling away from your tax home for business purposes.

What's deductible:

- Airfare for business trips
- Hotel / accommodation during business travel
- Rental car for business travel
- Taxi, Uber, Lyft to/from airport during business travel
- Meals during overnight business travel *(50% deductible — see Meals category)*

- Baggage fees during business travel
- Tips related to deductible travel expenses

What's NOT deductible:

- Personal travel even if you do some business while there
- Spouse or family travel expenses
- Lavish or extravagant expenses
- Commuting to a regular place of business

Log as: `Travel — [Destination] — [Purpose] — [Date]`
Example: `Travel — Houston TX — Client On-Site Shoot — Jun 20-21 2026`

> Document every business trip with: destination, dates, business purpose, and who you met with or what you worked on.

---

8. 🚗 Mileage / Vehicle

IRS Line: 9 — Car and Truck Expenses
Deductible: IRS standard mileage rate per business mile (see Section 5 for mileage tracking)

Business driving — not commuting to a regular office.

What qualifies as business mileage:

- Driving to client meetings or shoots
- Driving to a vendor or supplier
- Driving to a networking event or industry conference
- Driving to the bank for business purposes
- Driving to pick up business supplies
- Driving between multiple business locations in the same day

What does NOT qualify:

- Commuting from home to a regular office location
- Personal errands even if you also do business that day

Log as: See Section 5 — Mileage Tracking for the required format

---

9. 🍽️ Meals & Entertainment

IRS Line: 24b — Meals
Deductible: 50% of the cost

Business meals where business is actively discussed. Entertainment (concerts, sporting events, etc.) is generally **not deductible** under current tax law.

What qualifies:

- Meals with clients where business is discussed
- Meals with potential clients during sales meetings
- Meals with contractors during project discussions
- Team meals during a business meeting or training

What does NOT qualify:

- Lavish or extravagant meals
- Meals without a business purpose
- Entertainment events (tickets, concerts, sporting events)
- Meals for personal reasons even if near a business event

Required documentation for every meal:

- Receipt
- Who attended *(names and business relationship)*
- What business was discussed
- Date and location

Log as: `Meals — [Restaurant] — [Attendees & Business Relationship] — [Business Purpose] — [Date]`
Example: `Meals — Emeril's NOLA — John Smith (Acme Wellness, Client) — Quarterly Strategy Review — Jun 15 2026`

---

10. ⚖️ Professional Services

IRS Line: 17 — Legal and Professional Services
Deductible: 100%

Fees paid to professionals for business-related services.

Examples:

- Attorney fees *(contract review, business formation, legal advice)*
- CPA or accountant fees *(tax preparation, bookkeeping)*
- Business consultant fees
- Financial advisor fees *(for business financial planning only)*
- HR consultant
- IT or cybersecurity consultant
- Business coach

Log as: `Professional Services — [Provider Name] — [Service] — [Date]`
Example: `Professional Services — Jane Smith CPA — 2025 Tax Preparation — Mar 2026`

---

11. 🎓 Education & Training

IRS Line: 27a — Other Expenses
Deductible: 100% if it maintains or improves skills required in your current business

Examples:

- Online courses related to marketing, social media, SEO, video production, business management
- Industry conference registration fees
- Marketing or business books and publications
- Webinar fees
- Certification programs *(Google Ads, Meta Blueprint, HubSpot, etc.)*
- Coaching programs related to business skills

What does NOT qualify:

- Education to qualify for a new career or business
- General personal interest courses unrelated to marketing or production

Log as: `Education & Training — [Course/Event Name] — [Provider] — [Date]`
Example: `Education & Training — Google Ads Certification — Google — June 2026`

---

12. 📎 Office Supplies

IRS Line: 22 — Supplies
Deductible: 100% for business use

Physical supplies used in the course of running the business.

Examples:

- Pens, notebooks, sticky notes
- Printer paper and ink cartridges
- Filing folders and organization supplies
- Whiteboards and markers
- USB drives and memory cards
- Cables and accessories
- Cleaning supplies for equipment

Do NOT include: Equipment *(use Equipment category for items over ~$200 that last more than one year)*

Log as: `Office Supplies — [Description] — [Date]`
Example: `Office Supplies — Printer ink and paper — June 2026`

---

13. 🏠 Home Office

IRS Line: 30 — Home Office Deduction
Deductible: Calculated — see Section 6

If you work from home and have a dedicated space used regularly and exclusively for business — a portion of home expenses may be deductible. See Section 6 for the full calculation.

Log as: `Home Office — [Expense Type] — [Month/Year]`
Example: `Home Office — Rent/Mortgage Portion — June 2026`

---

14. 🏦 Bank & Payment Processing Fees

IRS Line: 27a — Other Expenses
Deductible: 100%

Fees charged by banks or payment processors in connection with business accounts.

Examples:

- Monthly bank account maintenance fees
- Wire transfer fees
- Stripe, Square, or PayPal transaction fees *(on business income)*
- Credit card annual fees *(for business credit cards)*
- Returned check fees
- ATM fees for business cash withdrawals

Log as: `Bank & Payment Fees — [Bank/Platform] — [Fee Type] — [Date]`
Example: `Bank & Payment Fees — Stripe — Transaction Fees — June 2026`

---

15. 🛡️ Insurance

IRS Line: 15 — Insurance
Deductible: 100% for business insurance premiums

Examples:

- General liability insurance
- Professional liability / errors and omissions (E&O) insurance
- Business property insurance
- Equipment insurance
- Cyber liability insurance
- Workers' compensation insurance *(if applicable)*

What does NOT qualify:

- Personal health insurance *(may be deductible elsewhere — consult CPA)*
- Life insurance where the business is the beneficiary *(generally not deductible)*

Log as: `Insurance — [Provider] — [Policy Type] — [Month/Year]`
Example: `Insurance — Hiscox — General Liability — June 2026`

---

16. 🎁 Client Gifts

IRS Line: 27a — Other Expenses

Deductible: Maximum $25 per recipient per year

Gifts given to clients, prospects, or business contacts.

Examples:

- Holiday gifts to clients
- Thank you gifts for referrals
- Welcome gifts for new clients
- Celebration gifts *(client business anniversary, major milestone)*

Required documentation:

- Receipt
- Recipient's name and business relationship
- Business purpose
- Date given

Note: If a gift could be considered entertainment *(e.g. event tickets)* — it is generally not deductible under current tax law even if under $25.

Log as: `Client Gift — [Recipient Name] — [Occasion] — [Date]`
Example: `Client Gift — John Smith, Acme Wellness — Holiday Gift — Dec 2026`

---

17. 🖨️ Printing & Postage

IRS Line: 18 — Office Expense
Deductible: 100% for business use

Examples:

- Printing proposals, contracts, or marketing materials
- Postage for business mail
- Shipping packages to clients
- FedEx, UPS, or USPS business shipments

Log as: `Printing & Postage — [Description] — [Date]`
Example: `Printing & Postage — Proposal printed and shipped to client — Jun 10 2026`

---

18. 🏛️ Dues & Memberships

IRS Line: 27a — Other Expenses
Deductible: 100% for professional organizations

Examples:

- American Marketing Association membership
- Local business association or chamber of commerce dues
- Industry-specific trade association fees
- LinkedIn Premium *(if used primarily for business development)*
- Networking group memberships

What does NOT qualify:

- Country clubs or social clubs *(generally not deductible)*
- Personal memberships unrelated to the business

Log as: `Dues & Memberships — [Organization] — [Year]`
Example: `Dues & Memberships — New Orleans Chamber of Commerce — 2026`

SECTION 3 — HOW TO LOG EXPENSES IN CLICKUP

Expense Task Format

Create one task per expense in the 💸 Expenses Tracker list in the 💰 Finance and Billing folder.

Task Name Format

`[Category] — [Description] — [Date]`

Example: `Software & Subscriptions — ClickUp Business Plan — June 2026`

Task Description Format

Fill in the task description using this template:

```
EXPENSE LOG

Date: [date of purchase]
Amount: $[exact amount including tax]
Category: [exact category name from Section 2]
Vendor / Payee: [who was paid]
Payment Method: [business card / business bank account / PayPal / etc.]
Business Purpose: [what this was for and how it relates to the business]
Client (if applicable): [client name if this expense is directly tied to a client project]
Receipt: [attached to this task / stored in Google Drive — [link] / paper receipt filed]
Tax Deductible: Yes / Partial [X%] / Confirm with CPA
Notes: [any additional notes — business use %, who attended a meal, etc.]
```

Example Completed Log

```
EXPENSE LOG

Date: June 15, 2026
Amount: $149.00
Category: Software & Subscriptions
Vendor / Payee: Adobe Creative Cloud
Payment Method: Business Visa ending 4521
Business Purpose: Adobe Creative Cloud annual subscription — used for Photoshop, Premiere Pro, and Illustrator for
client content production
Client (if applicable): All clients — general business tool
Receipt: Attached to this task
Tax Deductible: Yes — 100%
Notes: Annual renewal — $149/month billed monthly
```

Recurring Expense Setup

For monthly recurring expenses *(subscriptions, phone bill, internet)*:

- Create the task once with all details
- Set it as a **recurring task** in ClickUp — monthly
- Update the amount each month if it varies
- Attach the new receipt each month

SECTION 4 — RECEIPT MANAGEMENT

Receipt Requirements

Every deductible business expense must have supporting documentation. The IRS requires receipts for expenses over $75 — but best practice is to keep receipts for every business expense regardless of amount.

What a Valid Receipt Must Show

Element	Required
Vendor name	✅ Yes
Date of purchase	✅ Yes
Amount paid	✅ Yes
Items or services purchased	✅ Yes
Payment method	✅ Recommended

Receipt Storage System

Method	How to Use
Digital — preferred	Take a photo or scan immediately — attach directly to the ClickUp expense task
Google Drive	Create a folder: `Finance → Receipts → [Year] → [Month]` — upload and link in the ClickUp task
Physical	File in a labeled folder by month — scan within 30 days

> Never keep receipts only in your email inbox. Email providers can lose data, accounts can be compromised, and emails are hard to organize at tax time. Always save to ClickUp or Google Drive.

Receipt Best Practices

- **Photograph immediately** — don't wait until you get home
- **Email receipts** — forward to a dedicated `receipts@revitalproductions.com` email and save to Drive weekly
- **Credit card statements alone are not enough** — they show the amount and vendor but not what was purchased

- **Lost receipt?** — if you lose a receipt, write a memo immediately documenting: date, amount, vendor, what was purchased, and business purpose. This may be acceptable if it happens occasionally — not regularly.

SECTION 5 — MILEAGE TRACKING

IRS Standard Mileage Rate

The IRS sets a standard mileage rate each year for business driving. For 2026 — **check the current IRS rate at [irs.gov](irs.gov)** as it is updated annually (historically around 65-67 cents per mile).

Example: If you drive 100 business miles and the rate is $0.67 per mile — your deduction is $67.00

What to Log for Every Business Trip

Field	What to Record
Date	Date of the trip
Starting location	Where you started
Destination	Where you went
Business purpose	Why you drove there — who you met, what you did
Miles driven	Odometer start and end, or Google Maps distance
Client (if applicable)	Which client this trip was for

Mileage Log Format in ClickUp

Create a task in the 💸 Expenses Tracker for each business trip:

Task name: `Mileage — [Destination] — [Date]`

Task description:

```
MILEAGE LOG

Date: [date]
Start Location: [address or city]
Destination: [address or city]
Business Purpose: [who you met / what you did]
Client: [client name if applicable]
```

```
Odometer Start: [reading]
Odometer End: [reading]
Miles Driven: [total miles]
IRS Rate: $[current rate] per mile
Deduction Amount: $[miles x rate]
```

Mileage Tracking Apps

Consider using a mileage tracking app to automatically log business trips:

- **MileIQ** — automatically tracks and categorizes drives
- **Everlance** — automatic tracking with expense reporting
- **Stride** — free option for independent contractors
- **TripLog** — good for teams with multiple drivers

Export your mileage log monthly and attach to the Expenses Tracker in ClickUp.

SECTION 6 — HOME OFFICE DEDUCTION

Who Qualifies

You may deduct home office expenses if you use part of your home:

- **Regularly and exclusively** for business
- As your **principal place of business**

> The space must be used **only** for business — a desk in a shared living room generally does not qualify. A dedicated room or clearly defined workspace that is never used for personal activities may qualify.

Two Methods for Calculating the Deduction

Method 1 — Simplified Method

- $5 per square foot of dedicated home office space
- Maximum 300 square feet = maximum $1,500 deduction
- Easier to calculate — no need to track actual home expenses
- Cannot take depreciation on the home

Method 2 — Regular Method (usually larger deduction)

- Calculate the percentage of your home used for the office: `Office square footage ÷ Total home square footage = Business use %`
- Apply that percentage to actual home expenses

Home expenses that can be partially deducted:

Expense	Deductible Portion
Rent	Business use %
Mortgage interest	Business use % (coordinate with mortgage interest deduction)
Homeowner's / renter's insurance	Business use %
Utilities (electricity, gas, water)	Business use %
Home repairs and maintenance	Business use % *(only repairs that benefit the whole home)*
Internet	Business use % *(may overlap with Internet category — avoid double-counting)*

Example:

- Home: 1,500 sq ft total
- Office: 150 sq ft dedicated workspace
- Business use %: 150 ÷ 1,500 = **10%**
- Monthly rent: $1,500 → Home office deduction: $150/month → $1,800/year

Home Office in ClickUp

Log each home office expense monthly in the 💸 Expenses Tracker:

Task name: `Home Office — [Expense Type] — [Month/Year]`

Task description:

```
HOME OFFICE LOG

Month: [month and year]
Home Square Footage: [total sq ft]
Office Square Footage: [office sq ft]
Business Use %: [X%]
Expense Type: [Rent / Mortgage / Utilities / Insurance / etc.]
Total Monthly Amount: $[amount]
Deductible Portion: $[amount x business use %]
Notes: [any additional details]
```

SECTION 7 — MONTHLY & QUARTERLY EXPENSE REVIEW

Monthly Expense Review (by the 5th of each month)

Run this review on the first Monday of every month alongside the monthly CRM hygiene checklist:

- [ ] All expenses from last month logged in ClickUp 💸 Expenses Tracker
- [ ] All receipts attached or linked to expense tasks
- [ ] All mileage from last month logged
- [ ] Credit card and bank statements reconciled against expense log — every transaction accounted for
- [ ] Any personal expenses accidentally charged to business account identified and noted
- [ ] Any business expenses accidentally charged to personal account identified and logged
- [ ] Contractor payments logged with contractor name and amount
- [ ] Any new recurring subscriptions added to the log
- [ ] Home office expenses logged for the month

Quarterly Expense Review (first Monday of January, April, July, October)

- [ ] Pull all expense tasks from the past quarter in ClickUp
- [ ] Review totals by category — any unusual spending?
- [ ] Estimate quarterly tax payment based on net profit *(consult CPA for exact amount)*
- [ ] Confirm all 1099-eligible contractor payments tracked — total by contractor name
- [ ] Review software subscriptions — any unused tools that can be cancelled?
- [ ] Update the 📊 Profit & Loss Overview in ClickUp Finance folder

- ◯ Send expense summary to CPA for quarterly review *(recommended)*

Annual Expense Preparation (January — for prior year)

- ◯ Export all expense tasks from ClickUp for the prior year
- ◯ Organize by category with totals
- ◯ Confirm all receipts are attached and accessible
- ◯ Total all contractor payments — prepare 1099-NEC list for CPA
- ◯ Confirm mileage log total for the year
- ◯ Calculate home office deduction using actual figures
- ◯ Provide complete expense report to CPA by February 1

SECTION 8 — TAX PREPARATION CHECKLIST

Give this checklist to your CPA at the start of tax season along with your organized expense report:

Income Documentation

- ◯ All invoices sent — total revenue for the year
- ◯ Any 1099-NEC received from clients *(if clients paid over $600)*
- ◯ PayPal / Stripe / payment processor annual summary *(if applicable)*
- ◯ Any other income sources

Expense Documentation

- ◯ Organized expense report by category *(exported from ClickUp)*
- ◯ All receipts accessible *(ClickUp attachments or Google Drive folder)*
- ◯ Total contractor payments by contractor name — for 1099-NEC filing
- ◯ Mileage log total for the year
- ◯ Home office calculation *(square footage, business use %, monthly expenses)*
- ◯ Phone and internet business use % documentation
- ◯ Equipment purchases with descriptions and dates

Business Information

- ◯ Business name, EIN, and address
- ◯ Business bank account statements — full year
- ◯ Business credit card statements — full year
- ◯ Prior year tax return *(for CPA reference)*
- ◯ Any estimated tax payments made during the year

Louisiana State Specific

- ◯ Louisiana state income tax preparation *(separate from federal)*
- ◯ Louisiana franchise tax *(if applicable — consult CPA)*
- ◯ Sales tax — consult CPA regarding whether any Revital services are subject to Louisiana sales tax on digital services

---

SECTION 9 — LOUISIANA-SPECIFIC CONSIDERATIONS

> ⚠️ This section contains general information only. Louisiana tax law is complex and subject to change. Always consult a Louisiana-licensed CPA for specific guidance.

Louisiana State Income Tax

Louisiana has a state income tax on business income. As a Louisiana-based business:

- Business income is reported on both federal Schedule C and Louisiana income tax return
- Louisiana income tax rates and brackets — confirm current rates at revenue.louisiana.gov
- Estimated quarterly state tax payments may be required

Louisiana Sales Tax on Digital Services

Louisiana has enacted rules regarding sales tax on certain digital services. Consult your CPA to determine:

- Whether Revital Productions' marketing services are subject to Louisiana sales tax
- Whether software subscriptions purchased are subject to Louisiana use tax
- The current Louisiana sales tax rate and filing requirements

Louisiana Franchise Tax

Louisiana imposes a franchise tax on certain business entities. If Revital Productions is structured as an LLC or corporation — consult your CPA regarding:

- Whether the franchise tax applies to your business structure
- The current franchise tax rate and filing deadline
- Whether first-year exemptions apply

Home-Based Business Considerations

If operating from a home in Louisiana:

- Some Louisiana parishes have local business license requirements for home-based businesses — check with your local parish government
- Zoning restrictions may apply if clients visit your home office

Recommended Louisiana Resources

- **Louisiana Department of Revenue:** revenue.louisiana.gov
- **Louisiana Secretary of State:** sos.la.gov *(business registration and compliance)*
- **IRS.gov:** For federal tax guidance, Schedule C instructions, and current mileage rates
- **SCORE Louisiana:** Free mentoring for small business owners — score.org/chapter/score-louisiana

---

📋 EXPENSE CATEGORY QUICK REFERENCE

Category	Deductible %	Key Rule
Software & Subscriptions	100%	Business tools only
Contractor Payments	100%	W-9 required — 1099 at $600+
Advertising & Marketing	100%	Revital's own marketing only — not client ad spend
Equipment	100% (Section 179) or depreciated	Keep purchase receipts

Phone	Business use %	Document your %
Internet	Business use %	Document your %
Travel	100%	Overnight business travel only
Mileage	IRS rate per mile	Log every trip
Meals	50%	Document who attended and business purpose
Professional Services	100%	Attorney, CPA, consultants
Education & Training	100%	Must relate to current business
Office Supplies	100%	Physical supplies only
Home Office	Calculated	Regular and exclusive use required
Bank & Payment Fees	100%	Business accounts only
Insurance	100%	Business insurance only
Client Gifts	$25 max per person per year	Document recipient
Printing & Postage	100%	Business use only
Dues & Memberships	100%	Professional organizations only

Expense Tracking & Tax Categories Version 1.0 | Revital Productions | June 2026
Review annually with your CPA — tax laws and IRS rates change each year.
⚠️ *This document is a framework only — consult a licensed Louisiana CPA before filing.*
