

Quality Control (QC) Checklist

Quality Control (QC) Checklist

Revital Productions — Internal Use Only | Updated June 2026

- PURPOSE:** Every deliverable produced by Revital Productions must pass this QC checklist before it moves from **Internal Review** to **Client Review** in ClickUp. No exceptions. This checklist is the last line of defense before work reaches the client — if it doesn't pass QC, it goes back to production.
- WHO RUNS THIS:** The account manager or designated QC reviewer — never the same person who produced the deliverable.
- WHERE TO LOG IT:** Add a comment to the ClickUp task confirming QC was completed and by whom before moving the status to **Client Review**.
- HOW TO USE:** Work through the Universal Checklist first (applies to every deliverable), then the service-specific checklist that matches what you're reviewing. Check every item. If anything fails, move the task back to **In Production** with a clear note on what needs to be fixed.

QC CHECKLIST INDEX

Checklist	When to Use
 Universal QC	Every single deliverable — always run this first
 Social Media Content	Posts, Reels, Stories, carousels for any platform
 Paid Ad Creative	Facebook, Instagram, Google, TikTok, LinkedIn ads
 SEO	Monthly SEO work, blog posts, on-page optimizations
 Email Marketing	Newsletters, drip emails, promotional campaigns
 Website	New builds, redesigns, landing pages, page

	updates
 Video & Content Production	Reels, brand videos, commercials, product videos
 Monthly Reports	Client performance reports before delivery

UNIVERSAL QC CHECKLIST

Run this for EVERY deliverable regardless of service type

Reviewer: *(name)*
Client: *(name)*
Deliverable: *(description)*
Date Reviewed: *(date)*
ClickUp Task Link: *(paste link)*

Brand Consistency

- ☐ Colors match the client's approved brand palette (reference  Assets & Brand Files in ClickUp)
- ☐ Fonts match the client's approved typography
- ☐ Logo is used correctly — correct version, correct size, correct placement, not distorted
- ☐ Tone of voice matches the client's approved tone (reference Section 4 of their intake form or Content Strategy Builder in Hub)
- ☐ Messaging aligns with the client's brand story and core values (reference Section 3 of intake form)
- ☐ None of the client's documented messaging "Don'ts" are violated (reference Section 3, Q6 of intake form)

Copy & Content

- ☐ All copy has been proofread — no spelling errors
- ☐ All copy has been proofread — no grammatical errors
- ☐ Punctuation is correct and consistent throughout
- ☐ No placeholder text left in (e.g. "INSERT COPY HERE" or "TBD")
- ☐ No client name misspellings — double-check the correct legal business name
- ☐ CTAs (calls to action) are clear, specific, and match the campaign objective
- ☐ All claims and statistics are accurate and can be substantiated

Visual Quality

- ☐ All images and graphics are high resolution — no pixelation or blurriness
- ☐ No watermarked or unlicensed stock images used — all assets are properly licensed
- ☐ No copyrighted material used without proper licensing
- ☐ Visual hierarchy is clear — the most important element draws the eye first
- ☐ Text is legible — sufficient contrast between text and background
- ☐ No layout issues — no elements cut off, overlapping incorrectly, or misaligned

Legal & Compliance

- ☐ No claims that could be considered misleading or false advertising
- ☐ No use of competitor brand names or logos without permission
- ☐ No content that could be considered discriminatory, offensive, or controversial
- ☐ Client-specific content restrictions from intake form are respected (Section 4, Q9 — Never-discuss topics)
- ☐ Any required disclaimers or disclosures are included (especially for paid ads)

Links & Technical

- ☐ All links have been clicked and confirmed working
- ☐ All links go to the correct destination
- ☐ UTM parameters are added to all trackable links (source, medium, campaign)
- ☐ File is in the correct format for delivery (JPG, PNG, MP4, PDF, etc.)
- ☐ File is named correctly — use format: ClientName_DeliverableType_Date

Final Pre-Send Check

- ☐ Deliverable matches what was briefed and approved in the Campaign Brief task
- ☐ Revision rounds are tracked — this is Round (X) of (X) included
- ☐ Task status is updated to **Internal Review** in ClickUp before QC begins
- ☐ QC reviewer is different from the person who produced this deliverable

QC RESULT:  Passed — move to **Client Review** |  Failed — move back to **In Production** with notes

SOCIAL MEDIA CONTENT QC CHECKLIST

Run after the Universal QC for all social media deliverables

Platform: *(Instagram / Facebook / TikTok / LinkedIn / X / Pinterest / YouTube)*

Content Type: *(Feed Post / Reel / Story / Carousel / Cover / Profile)*

Platform Specifications

Instagram Feed Post (Static)

- ☐ Image size: 1080 x 1080px (square) or 1080 x 1350px (portrait) — confirmed
- ☐ File format: JPG or PNG — confirmed
- ☐ File size: Under 30MB — confirmed

Instagram / Facebook Reel

- ☐ Video size: 1080 x 1920px (9:16 vertical) — confirmed
- ☐ Video length: 3 seconds to 90 seconds — confirmed
- ☐ File format: MP4 or MOV — confirmed
- ☐ No TikTok watermark present (if repurposed content)
- ☐ Captions/subtitles added for accessibility

Instagram Story

- ☐ Size: 1080 x 1920px — confirmed
- ☐ No important content in the top 250px or bottom 250px (covered by UI elements)

Instagram Carousel

- ☐ All slides are the same dimensions — confirmed
- ☐ Slides flow logically — first slide hooks, last slide has CTA
- ☐ Number of slides: 2-10 — confirmed

Facebook Feed Post (Static)

- ☐ Image size: 1200 x 630px (landscape) or 1080 x 1080px (square) — confirmed

TikTok Video

- ☐ Size: 1080 x 1920px (9:16) — confirmed
- ☐ Length: 15 seconds to 10 minutes — confirmed
- ☐ No copyrighted music used — confirmed (use TikTok's licensed audio library)
- ☐ Captions/subtitles added

LinkedIn Post (Static)

- ☐ Image size: 1200 x 627px — confirmed
- ☐ Tone is professional and appropriate for LinkedIn audience

LinkedIn Video

- ☐ Length: 3 seconds to 10 minutes — confirmed
 - ☐ File size: Under 5GB — confirmed
-

Caption & Copy

- ☐ Caption length is appropriate for the platform
 - Instagram: Under 2,200 characters (optimal: first 125 characters hook)
 - Facebook: Under 63,206 characters (optimal: under 80 characters)
 - TikTok: Under 2,200 characters
 - LinkedIn: Under 3,000 characters (optimal: under 150 characters before "see more")
- ☐ Hashtags are relevant, researched, and within platform limits
 - Instagram: 3-10 hashtags (optimal)
 - TikTok: 3-5 hashtags
 - LinkedIn: 3-5 hashtags
 - Facebook: 1-2 hashtags maximum
- ☐ Caption includes a clear CTA
- ☐ Emojis are used appropriately and match the brand tone
- ☐ Any @mentions or tags are correct and the accounts exist
- ☐ No hashtags that are banned or flagged on the platform

Strategy & Content

- ☐ Post aligns with the approved content pillar for this week
 - ☐ Post aligns with the content calendar schedule
 - ☐ Post type matches the platform's current best-performing format
 - ☐ If scheduled — scheduled for the correct date, time, and platform in the scheduling tool
-

PAID AD CREATIVE QC CHECKLIST

Run after the Universal QC for all paid advertising deliverables

Platform: *(Meta / Google / TikTok / LinkedIn / Pinterest / Snapchat)*

Ad Format: *(Single Image / Video / Carousel / Story / Search / Display)*

Campaign Objective: *(Awareness / Traffic / Leads / Conversions / Sales)*

Ad Specifications

Meta Single Image Ad

- ☐ Image size: 1080 x 1080px or 1200 x 628px — confirmed
- ☐ Text overlay: Under 20% of the image — confirmed
- ☐ File format: JPG or PNG — confirmed

Meta Video Ad

- ☐ Aspect ratio: 1:1, 4:5, or 9:16 — confirmed
- ☐ Length: 1 second to 240 minutes (optimal: 15-30 seconds) — confirmed
- ☐ Captions included — confirmed

Meta Carousel Ad

- ☐ 2-10 cards — confirmed
- ☐ Each card has its own headline and CTA
- ☐ Cards tell a logical story or showcase multiple products/services

Google Search Ad

- ☐ Headlines: Up to 15 headlines, max 30 characters each — confirmed
- ☐ Descriptions: Up to 4 descriptions, max 90 characters each — confirmed
- ☐ Final URL leads to the correct landing page — confirmed
- ☐ Display URL is clean and relevant

Google Display Ad

- ☐ All required sizes provided: 300x250, 728x90, 160x600, 300x600 — confirmed
- ☐ File size: Under 150KB — confirmed

TikTok Ad

- ☐ Size: 9:16 vertical — confirmed
- ☐ Length: 5-60 seconds — confirmed
- ☐ No watermarks — confirmed
- ☐ Hook in first 3 seconds — confirmed

LinkedIn Ad

- ☐ Image size: 1200 x 627px — confirmed
- ☐ Headline: Max 150 characters — confirmed
- ☐ Description: Max 70 characters — confirmed

Ad Copy & Compliance

- ☐ Headline is attention-grabbing and relevant to the target audience
- ☐ Primary text (body copy) is clear and leads to the CTA
- ☐ CTA button matches the campaign objective (Learn More / Shop Now / Sign Up / Get Quote)
- ☐ Ad does not violate platform advertising policies:
 - ☐ No before/after imagery (Meta policy violation)
 - ☐ No misleading health claims
 - ☐ No discriminatory targeting language
 - ☐ No excessive capitalization or punctuation

- ☐ Landing page URL is correct and live — confirmed
- ☐ Landing page matches the ad's promise (message match) — confirmed
- ☐ UTM parameters on the destination URL — confirmed

Tracking & Technical

- ☐ Meta Pixel is confirmed firing on the destination page
 - ☐ Google conversion tracking is confirmed active
 - ☐ UTM parameters correctly formatted: source / medium / campaign / content
 - ☐ Ad account confirmed active and not restricted before launch
 - ☐ Budget set correctly — daily vs. lifetime — confirmed
 - ☐ Campaign start and end dates set correctly — confirmed
 - ☐ Ad reviewed and approved by account manager before going live
-

SEO QC CHECKLIST

Run after the Universal QC for all SEO deliverables

Deliverable Type: *(On-Page Optimization / Blog Post / Technical Fix / Local SEO / Link Building)*

On-Page SEO

- ☐ Target keyword confirmed and matches the brief
- ☐ Target keyword appears in the page title (H1)
- ☐ Target keyword appears in the meta title (under 60 characters)
- ☐ Meta description is written (under 160 characters) and includes the keyword naturally
- ☐ Target keyword appears in the first 100 words of the content
- ☐ Header hierarchy is correct: H1 → H2 → H3 — no skipped levels
- ☐ Internal links added to relevant pages on the client's site
- ☐ External links (if used) go to reputable, relevant sources and open in a new tab
- ☐ All images have descriptive alt text including the keyword where natural
- ☐ URL slug is clean, short, and includes the keyword (no stop words)
- ☐ Page has been checked for duplicate content

Blog Post Specific

- ☐ Word count meets or exceeds the brief requirement (minimum 800 words for SEO impact)
- ☐ Content is original — not AI-generated without human editing and review
- ☐ Content provides genuine value — answers the search intent of the target keyword
- ☐ Featured image is included and has alt text
- ☐ Blog post includes at least one internal link to a relevant service or product page
- ☐ CTA is included at the end of the post

Technical SEO

- ☐ Page speed tested — Google PageSpeed score above 70 on mobile — confirmed
- ☐ Page is mobile responsive — confirmed
- ☐ No broken links on the page — confirmed
- ☐ Schema markup added where applicable
- ☐ Page is indexable — not accidentally blocked by robots.txt or noindex tag
- ☐ Canonical tag is correct

Local SEO

- ☐ Google Business Profile updated with correct information
- ☐ NAP (Name, Address, Phone) consistent across all listings
- ☐ New post or update added to Google Business Profile — confirmed

EMAIL MARKETING QC CHECKLIST

Run after the Universal QC for all email deliverables

Email Platform: (*Mailchimp / Klaviyo / ActiveCampaign / HubSpot / Other*)

Email Type: (*Newsletter / Promotional / Drip / Transactional / Re-engagement*)

Content & Copy

- ☐ Subject line is under 50 characters (optimal for mobile)
- ☐ Subject line does not contain spam trigger words (FREE, URGENT, ACT NOW, !!!, ALL CAPS)
- ☐ Preview text is written and complements the subject line (under 90 characters)
- ☐ Email has one clear primary CTA — not multiple competing actions
- ☐ CTA button is prominent and uses action language (Shop Now / Read More / Get Started)
- ☐ All links tested — every link clicked and confirmed working
- ☐ Unsubscribe link is present and working — confirmed
- ☐ Physical mailing address is included in the footer (CAN-SPAM requirement)
- ☐ "View in browser" link is present

Design & Rendering

- ☐ Email previewed on mobile — layout looks correct on small screens
- ☐ Email previewed on desktop — layout looks correct
- ☐ Email previewed in dark mode — text and images still readable
- ☐ All images have alt text in case images don't load
- ☐ Images are optimized — no image is over 1MB
- ☐ Email width is 600px or under — confirmed
- ☐ Font size is minimum 14px for body text — confirmed
- ☐ Sufficient contrast between text and background

Technical & Sending

- ☐ Correct sender name and reply-to email set
 - ☐ Email is sent from a warmed domain — not flagged for spam
 - ☐ Sending to the correct list or segment — double-check before sending
 - ☐ Test email sent to internal team and reviewed before deployment — confirmed
 - ☐ Send date and time confirmed — optimal for this client's audience
 - ☐ UTM parameters added to all links in the email
 - ☐ Tracking is enabled — open rate and click tracking confirmed on
 - ☐ A/B test set up if applicable (subject line, send time, CTA)
-

WEBSITE QC CHECKLIST

Run after the Universal QC for all website deliverables

Deliverable Type: *(New Build / Redesign / Landing Page / Page Update / Bug Fix)*

Platform: *(WordPress / Shopify / Webflow / Squarespace / Wix / Custom)*

Design & Visual

- ☐ Design matches the approved mockup — no unapproved changes
- ☐ Brand colors, fonts, and logo are used correctly throughout
- ☐ All pages reviewed on desktop (1440px) — layout correct
- ☐ All pages reviewed on tablet (768px) — layout correct
- ☐ All pages reviewed on mobile (375px) — layout correct
- ☐ No elements overlapping, cut off, or misaligned on any screen size
- ☐ Images are high quality and loading correctly
- ☐ Favicon is set correctly
- ☐ 404 error page is set up and branded

Performance

- ☐ Google PageSpeed score: Mobile above 70, Desktop above 85 — confirmed
- ☐ All images compressed and optimized — no image over 500KB on page load
- ☐ Lazy loading enabled for images — confirmed
- ☐ No render-blocking scripts — confirmed

Links & Navigation

- ☐ All navigation links work and go to the correct pages
- ☐ All buttons and CTAs work and go to the correct destination
- ☐ All external links open in a new tab
- ☐ No broken links anywhere on the site — confirmed (run broken link checker)
- ☐ Footer links all working correctly

Technical & SEO

- ☐ SSL certificate active — site loads on HTTPS — confirmed
- ☐ Google Analytics 4 installed and tracking — confirmed
- ☐ Meta Pixel installed and firing — confirmed (if applicable)
- ☐ Google Tag Manager installed — confirmed (if applicable)
- ☐ All pages have unique meta titles and descriptions
- ☐ XML sitemap submitted to Google Search Console — confirmed
- ☐ Robots.txt file is correct — site is indexable
- ☐ Contact form tested — submissions are received — confirmed
- ☐ All forms connected to the correct email or CRM — confirmed

Pre-Launch

- ☐ Client has reviewed and approved the final design — confirmed
- ☐ Staging site reviewed and approved before going live
- ☐ DNS pointed to the correct hosting — confirmed
- ☐ Old site backup taken before any major changes — confirmed
- ☐ Post-launch check completed — all pages live and working — confirmed

VIDEO & CONTENT PRODUCTION QC CHECKLIST

Run after the Universal QC for all video and production deliverables

Deliverable Type: *(Reel / Brand Video / Commercial / Product Video / Testimonial / Tutorial)*

Video Quality

- ☐ Resolution is minimum 1080p — confirmed
- ☐ Frame rate is consistent throughout (24fps / 30fps / 60fps) — confirmed
- ☐ No shaky footage without intentional effect
- ☐ Exposure is correct — no overexposed or underexposed sections
- ☐ Color grading is consistent throughout

- ☐ Color grading matches client's visual style from intake form (Section 4)

Audio Quality

- ☐ Audio is clear — no background noise, echo, or distortion
- ☐ Audio levels are consistent throughout — no sudden drops or spikes
- ☐ Background music is properly licensed — confirmed
- ☐ Music volume does not overpower voiceover or dialogue
- ☐ If voiceover — pronunciation is correct and clear
- ☐ Captions/subtitles are accurate and timed correctly

Editing

- ☐ Cuts are clean and transitions are smooth
- ☐ Video begins with a strong hook in the first 3 seconds
- ☐ Video length matches the brief and platform requirement
- ☐ Lower thirds / text overlays are spelled correctly
- ☐ Lower thirds are on screen long enough to read comfortably
- ☐ Logo / watermark is placed correctly per brand guidelines
- ☐ Intro and outro match the approved brand style
- ☐ Final frame includes a clear CTA

Delivery

- ☐ Final file exported in the correct format (MP4 preferred)
- ☐ File size is appropriate for the delivery method
- ☐ Both vertical (9:16) and horizontal (16:9) versions exported if required
- ☐ Raw files backed up before delivery — confirmed
- ☐ File named correctly: ClientName_VideoType_Date

MONTHLY REPORT QC CHECKLIST

Run after the Universal QC before delivering any client performance report

Client: *(name)*

Report Period: *(Month Year)*

Platforms Covered: *(list all)*

Content & Accuracy

- ☐ All data pulled from the correct date range — first to last day of the month
- ☐ All metrics verified against the live platform dashboards — no copy/paste errors
- ☐ KPIs benchmarked against the client's agreed targets from their intake form (Section 6, Q2)
- ☐ Previous month's data included for comparison — confirmed
- ☐ Executive summary written and accurately reflects the data
- ☐ Top 3 wins are genuine wins backed by data — not inflated
- ☐ Areas for improvement are honest and constructive — not vague
- ☐ Next month recommendations are specific and actionable
- ☐ Hub audit progress scores included and accurate

Data Per Platform *(check only platforms applicable to this client)*

Social Media

- ☐ Follower count (start and end of month) — confirmed
- ☐ Total reach — confirmed
- ☐ Total impressions — confirmed
- ☐ Engagement rate — confirmed
- ☐ Top 3 performing posts identified

Paid Ads (Meta / Google / TikTok / LinkedIn)

- ☐ Total ad spend — confirmed and matches platform billing
- ☐ Impressions — confirmed
- ☐ Clicks — confirmed
- ☐ CTR — confirmed
- ☐ Cost per click (CPC) — confirmed
- ☐ Conversions or leads — confirmed

- ☐ Cost per result (CPL / CPA) — confirmed
- ☐ ROAS (if e-commerce) — confirmed

SEO

- ☐ Organic traffic (vs. previous month) — confirmed
- ☐ Keyword rankings for target keywords — confirmed
- ☐ Google Business Profile views and actions — confirmed
- ☐ Backlinks gained this month — confirmed

Email Marketing

- ☐ Emails sent — confirmed
- ☐ Open rate — confirmed
- ☐ Click rate — confirmed
- ☐ Unsubscribe rate — confirmed
- ☐ List size (start and end of month) — confirmed

Pre-Delivery

- ☐ Report reviewed by account manager for accuracy — confirmed
 - ☐ Report reviewed for any sensitive data or underperformance that needs a talking point prepared before sending
 - ☐ PDF uploaded to Google Drive — Client Assets → Monthly Reports → [Client] → [Month Year]
 - ☐ Sharing set to "Anyone with the link" — Viewer access confirmed
 - ☐ Report task created in client's  Reports & Analytics list in ClickUp with all fields populated
 - ☐ Client notification email drafted using Template #11 from Email Templates doc
 - ☐ Report delivered by the 5th of the month — confirmed
-

QC FAILURE PROTOCOL

If a deliverable fails QC at any point, follow this process:

1. **Do NOT move the task to Client Review** — keep it in Internal Review

2. Add a comment to the ClickUp task listing every item that failed with a clear description of what needs to be fixed
3. Tag the team member who produced the deliverable
4. Move the task status back to **In Production**
5. Set a revised due date that still allows time for re-review before the client deadline
6. If the failure will cause a delay to the client delivery date — notify the account manager immediately so the client can be informed proactively
7. Once fixes are made, the deliverable must go through the full QC checklist again — not just the failed items

⚠ A deliverable that has failed QC twice on the same issues must be escalated to leadership before it is sent to the client.

QC LOG — HOW TO RECORD COMPLETION

After every QC review, add a comment to the ClickUp task in this format:

✅ QC COMPLETED

Reviewer: [Your Name]

Date: [Date]

Deliverable: [Description]

Round: [X of X]

Result: PASSED / FAILED

Notes: [Any notes — issues found, fixes requested, or "All items passed"]

QC Checklist Version 1.0 | Revital Productions | June 2026

This checklist must be completed for every deliverable before it reaches the client. No exceptions.
