

Client Offboarding SOP

Client Offboarding SOP

Owner: Account Manager

Trigger: Client gives notice or contract end date arrives

Key tools used in this SOP:

ClickUp — CRM Deal record,  Access & Logins Tracker,  Client Ad Account Tracker, client delivery folder, 
Master Shared Links Tracker

Revital Hub — final audit run, client profile

 QC Checklist — Section 1 + Section 10 on final report before delivery

 Email Templates — Template #16 Offboarding Final Email

 Client Communication Policy — Part B tone guidance for offboarding communication

 Contract Templates — Early Termination Agreement if applicable

Steps

1. Confirm the Offboarding

- Update Deal Onboarding Status to **Offboarding** in CRM
- Confirm the last day of service in writing with the client — email confirmation required, not verbal only
- Review the contract for any offboarding obligations (notice period, deliverables owed, access handoff timeline)
- If the client is leaving before the contract end date, initiate the **Early Termination Agreement** from the  Contract Templates doc

2. Final Hub Audit Run

- Log in to the Hub at hub.revitalproductions.com using your @revitalproductions.com email
- Open the client's profile and run a final version of all applicable audits — Social Media Audit, SEO Audit, UX/UI Audit
- Screenshot or export the final audit scores — these go in the offboarding report as proof of improvement
- Compare final scores against the onboarding baseline to show the client's progress during the engagement

3. Wind Down Production

- Complete all in-flight deliverables that can be finished before the last day — all must still pass QC before delivery
- Cancel any deliverables that cannot be completed in time — notify the client in writing
- Do not start any new work after the offboarding date is confirmed
- Deliver all final completed assets to the client

4. Hand Off Access

- Pull the client's  Access & Logins Tracker and  Client Ad Account Tracker in ClickUp — use these as the complete list of platforms to hand back
- Transfer ownership of ad accounts, social pages, and tools back to the client on all platforms
- Remove all Revital Productions team member access from every client platform
- Provide the client with any logins, credentials, or assets that belong to them
- Remove the client's profile from the Revital Hub
- Log all access removals in the  Access & Logins Tracker with the removal date

5. Final Reporting

- Build the final performance report using the Hub Monthly Report Template
- Run **Section 1 (Universal QC)** and **Section 10 (Monthly Report QC)** from the  QC Checklist before delivery
- Include Hub audit scores from onboarding vs. offboarding to show improvement over the full engagement
- Include key wins, results achieved vs. original objectives from Section 6 of the client's intake form
- Include recommendations for what the client should focus on next
- Upload to  Reports & Analytics in the client's ClickUp portal

6. CRM & Workspace Cleanup

- Move Deal to **Closed Won** (positive exit) or **Inactive** (any other exit)
- Log the Inactive Reason — reference the dropdown options in the CRM Guidelines doc
- Update Client Health to the final rating
- Archive the client's delivery folder in ClickUp
- Update all custom fields — confirm End Date, Closed Date, and Billing are all accurate
- **Archive the client's tracker tasks** in the  Master Shared Links Tracker:
 - Open Master Shared Links Tracker → filter by the client's tag
 - Select all 7 tracker tasks for this client
 - Set Status to **Archived** on all 7

Remove and delete the client's ClickUp tag:

- i. Go to ClickUp **Settings** → **Tags**
- ii. Find the client's tag (*named exactly as their folder*)
- iii. Click **Delete** — confirm deletion
- iv. This keeps the workspace tag list clean as you grow

7. Relationship Maintenance

- Send **Email Template #16 — Offboarding Final Email** — review **Client Communication Policy Part B** for the correct tone
 - Ask for a Google or LinkedIn review within 7 days of offboarding — include the direct review link
 - Log the review request in ★ Testimonials & Reviews in the Internal Marketing folder in ClickUp
 - Tag the client's Deal record for a 90-day follow-up check-in in case of re-engagement
-

Offboarding Checklist

- ☐ Offboarding confirmed in writing with client
- ☐ Deal Onboarding Status updated to **Offboarding** in CRM
- ☐ Early Termination Agreement issued if applicable
- ☐ Final Hub audits run and scores exported
- ☐ All in-flight deliverables completed or cancelled — client notified
- ☐ All remaining deliverables passed QC before delivery
