

Team Member Onboarding SOP

Team Member Onboarding SOP

Owner: Operations
Trigger: New hire or contractor confirmed start date

Key tools used in this SOP:

- ClickUp — HR folder (Team Roster, Contractor Agreements Tracker)
- Revital Hub — full orientation required on Day 1
-  QC Checklist doc — must be walked through in full on Day 1
-  Client Communication Policy — Part B mandatory reading and role-play on Day 1
-  Client Onboarding SOP — intake form section reference guide walkthrough on Day 1

 Contract Templates — Contractor / Freelancer Agreement and NDA

ClickUp Teams Structure

ClickUp Teams group members by function so permissions, notifications, and task assignments can be managed by team rather than individual. Every team member must be added to the correct team on Day 1.

To create or manage teams:

1. Click your **workspace name** at the top left
2. Go to **Settings**
3. Click **Teams** in the left menu
4. Click + **Create Team** or add the new member to an existing team

Plan Limitations — Read Before Setting Permissions

Sharing Spaces with Teams requires Business Plus or Enterprise plan. On the current Business plan, Teams can be shared with Folders, Lists, and Tasks — but NOT entire Spaces. This means space-level access restrictions cannot be enforced by team on the Business plan.

What this means in practice:

Action	Business Plan	Business Plus / Enterprise
--------	---------------	----------------------------

Assign team members to Teams	✔ Available	✔ Available
Share Folders/Lists with Teams	✔ Available	✔ Available
Share Spaces with Teams	✗ Not available	✔ Available
Set permissions on Spaces	✗ Enterprise only	✔ Enterprise only

Current approach on Business plan:

- All spaces are public to all workspace members by default
- Use **Folder-level privacy** to restrict access for contractors and limited team members
- Make sensitive folders (*e.g. Finance & Billing, Legal & Compliance*) private and share only with relevant teams
- Full space-level restrictions will be available if/when upgrading to Business Plus or Enterprise

How to make a folder private:

1. Right-click the folder in the sidebar
2. Click **Sharing & Permissions**
3. Toggle to **Private**
4. Add the Teams or individuals who should have access

Folders to make private when hiring restricted team members:

Folder	Who Should Have Access
💰 Finance & Billing	🎯 Leadership + 🔧 Operations & Admin only
⚖️ Legal & Compliance	🎯 Leadership + 🔧 Operations & Admin only
👥 HR & Team Management	🎯 Leadership + 🔧 Operations & Admin only
📊 Dashboards	🎯 Leadership + 📣 Account Management only
Specific client folders	Assigned delivery team members only

Future upgrade note: When upgrading to Business Plus, revisit space permissions and set them according to the Space Access column in the Teams table below. This will give full control over who sees what across the entire workspace.

Team Definitions

Team	Description	Space Access (<i>Business Plus+</i>)
 Leadership	Owners and senior leadership of Revital Productions. Full access to all spaces, dashboards, and financials. Responsible for strategic direction, client health oversight, and business growth decisions.	All spaces — full Admin
 Account Management	Account managers and client success leads. Manages all client relationships, portal setup, onboarding, monthly reporting, and CRM updates.	Operations, Delivery, CRM, Growth
 Delivery & Production	Content creators, designers, video editors, and social media managers. Responsible for producing, QC-ing, and publishing all client deliverables.	Operations (<i>SOPs only</i>), Delivery
 Sales & Growth	Sales leads and business development. Manages lead outreach, proposals, pipeline, and closing.	Operations, Growth, CRM
 Operations & Admin	Operations manager, executive assistant, and finance. Manages SOPs, invoicing, expense tracking, tool management, and team onboarding.	Operations, CRM (<i>read only</i>), Finance

Teams by Role — Quick Reference

Role	Team(s) to Assign
Owner / Founder	 Leadership + all teams

Account Manager	 Account Management
Content Creator / Designer	 Delivery & Production
Video Editor	 Delivery & Production
Social Media Manager	 Delivery & Production
SEO Specialist	 Delivery & Production
Paid Ads Manager	 Delivery & Production
Sales Lead	 Sales & Growth
Operations Manager	 Operations & Admin
Executive Assistant	 Operations & Admin
Contractor / Freelancer	 Delivery & Production <i>(Guest role — specific client folder only)</i>

Future Teams *(add as you scale)*

Team	Who	Access
 Creative	Graphic designers, photographers, videographers	Delivery — specific client folders only
 SEO & Paid Media	SEO specialists, paid ads managers	Delivery — specific client folders only
 Contractors & Freelancers	Project-based workers	Guest role — one list or folder only

Clients **never** get ClickUp access. They only see their portal via shared view links. Never invite a client as a Guest unless deliberately scoped to a single read-only view.

Steps

Before Day 1

- ☐ Add to Team Roster in HR folder in ClickUp — role, start date, contact info
- ☐ Set up ClickUp account and assign to relevant **Team** based on their role *(see Teams table above)*
- ☐ Grant access to required spaces based on their team's space permissions

- ☐ If contractor or restricted team member — make sensitive folders private before granting access (*see Folder Privacy table above*)
 - ☐ Grant access to required tools — design tools, scheduling tools, reporting tools, email platform
 - ☐ Send Hub access invite to their **@revitalproductions.com** email address — never a personal email
 - ☐ Include the temporary Hub password in the welcome email — confirm they must change it on first login
 - ☐ Send welcome email with first day instructions, schedule, and what to bring
 - ☐ Prepare signed **Contractor / Freelancer Agreement** and file in Contractor Agreements Tracker in ClickUp
 - ☐ Prepare NDA if required for their role — have it ready to sign on Day 1
-

Day 1 — Hub & Tools Orientation

- ☐ Employee logs in to hub.revitalproductions.com using their **@revitalproductions.com** email
 - ☐ Employee changes their temporary password on first login — confirm before proceeding
 - ☐ Full walkthrough of all Hub tools:
 - Onboarding Checklist
 - Social Media Audit
 - SEO Audit
 - UX/UI Audit
 - Content Strategy Builder (all 12 sections)
 - Competitor Analysis
 - Copywriting Assistant
 - Monthly Report Template
 - ☐ Walkthrough of ClickUp workspace — all spaces, CRM, delivery folders, client portals, Finance, Legal, and Growth folders
 - ☐ Walk through the **Client Onboarding Form section reference guide** in the 📁 Client Onboarding SOP — every team member must understand what each section covers and how it feeds into their daily workflow
-

Day 1 — QC Checklist Orientation

- ☐ Open the  **Quality Control (QC) Checklist** doc in the SOPs folder
- ☐ Walk through the **Universal QC Checklist** in full — explain every category and why it exists
- ☐ Walk through each service-specific checklist that applies to their role
- ☐ Demonstrate how to log QC completion in a ClickUp task using the standard comment format

- ☐ Confirm they understand: **QC must be completed before any deliverable moves to Client Review — no exceptions**
-

Day 1 — Client Communication Policy Orientation

- ☐ Open the  **Client Communication Policy** doc — walk through **Part B** in full
 - ☐ Cover every section:
 - The 7 core communication rules
 - Channel guide — which channel for which type of request
 - Response time standards
 - Meeting standards — before, during, and after
 - Escalation protocol — when and how to escalate to leadership
 - Approved language scripts for difficult situations
 - Client Health monitoring responsibilities
 - Out of office protocol
 - Confidentiality rules
 - ☐ Confirm they understand: **all revision requests go through the portal — no exceptions**
 - ☐ Confirm they understand: **all significant client calls must be logged in ClickUp within 2 hours**
-

Day 1 — SOP Review

- ☐ Walk through all SOPs in the  SOPs & Internal Processes folder
 - ☐ Explain how the Hub, intake form, QC checklist, communication policy, and ClickUp all connect in the daily workflow
 - ☐ Assign first task with supervision from a senior team member
-

Day 1 — Paperwork

- ☐ NDA signed and filed in Legal & Compliance folder in ClickUp
 - ☐ Contractor Agreement signed and filed in HR folder in ClickUp
-

Week 1

- ☐ Shadow a full intake form review and red flag check on a real or sample client
 - ☐ Shadow a full QC review on a real or sample deliverable — observe the reviewer run the full checklist
 - ☐ Shadow a full client onboarding in the Hub — from profile creation through audit completion
 - ☐ Complete a practice run of the Content Strategy Builder using sample intake form responses
 - ☐ Role-play at least two difficult client communication scenarios using the approved language scripts from **Client Communication Policy Part B** — manager coaches on tone, language, and escalation
 - ☐ Complete brand voice and client overview review for any accounts they've been assigned to
 - ☐ First formal check-in meeting at the end of Week 1 — review progress, answer questions, confirm comfort with all tools and processes
-

Team Member Onboarding Checklist

Before Day 1

- ☐ Added to Team Roster in ClickUp
- ☐ ClickUp account set up
- ☐ Assigned to correct ClickUp Team (*see Teams table above*)
- ☐ Sensitive folders made private if contractor or restricted team member
- ☐ Space/folder permissions set based on team role
- ☐ Tools access granted
- ☐ Hub invite sent to @revitalproductions.com email
- ☐ Welcome email sent
- ☐ Contractor Agreement prepared

Day 1

- ☐ Hub login confirmed with company email and password changed
- ☐ Full Hub walkthrough completed
- ☐ ClickUp workspace walkthrough completed
- ☐ Intake form section reference guide walkthrough completed
- ☐ QC Checklist walkthrough completed
- ☐ Client Communication Policy Part B walkthrough completed
- ☐ All SOPs reviewed
- ☐ NDA signed and filed
- ☐ Contractor Agreement signed and filed

- ☐ First task assigned with supervision

Week 1

- ☐ Shadowed intake form red flag review
 - ☐ Shadowed QC review
 - ☐ Shadowed Hub client onboarding
 - ☐ Completed Content Strategy Builder practice run
 - ☐ Completed communication role-play scenarios
 - ☐ Account-specific brand voice review completed
 - ☐ Week 1 check-in meeting held
-
